

Herman Donawan

AI Developer & Programmer

Boyolali, Central Java, Indonesia | kangmaswawan21@gmail.com
github.com/cryptboys | linkedin.com/in/herman-donawan-731554

SUMMARY

AI Developer specializing in LLM Evaluation (RLHF), Autonomous Agents, AI Voice Data, Prompt Engineering, and Web3/DeFi. Building intelligent agents, voice-driven experiences, and the infrastructure that trains the models behind them.

EXPERIENCE

Freelance AI Contributor - Outlier (2023 - Present)

- Evaluate and train LLMs through RLHF across multilingual datasets.
- Design and refine prompts for instruction-following and reasoning tasks.
- Build and curate multilingual audio datasets for voice AI training.

Freelance Python & AI Developer - Upwork (2023 - Present)

- Ship Python scripts and automation tooling for client workflows.
- Develop autonomous AI agents with LLM API integration.

Community Ambassador - Base Ecosystem (2023 - Present)

- Drive Web3 education, DeFi awareness, and community engagement.

PROJECTS

Interactive AI Avatar / Radio DJ System

Python, TikTokLive, TTS, LLM - Real-time streaming app with live comment responses.

Autonomous DeFi Liquidity Agent

Python, Hermes, Meridian, Solana - DLMM liquidity analysis and on-chain decisions.

Data Science & EDA

Kaggle, Jupyter, pandas - Notebooks cleaning and analyzing datasets.

SKILLS

Engineering: Python, JSON, Markdown, Git/GitHub, API Integration, Jupyter

AI/LLM: LLM Evaluation (RLHF), Prompt Engineering, Autonomous Agents (Hermes, Meridian), CrewAI, Model Fine-tuning

Voice: Multilingual Voice Actor (EN/ID/JV), AI Voice Data Generation, TTS Pipeline

Data/Web3: Data Science, DeFi, Web3
